

BML Volunteer Packet Instructions (revised 2/2024)

This Packet includes:

- BML Volunteer/Visitor Information Sheet (**Required**) pg. 1
- Workers Compensation Volunteer Information form (**Required**) pg. 2
- Designation of Physician forms (**Optional but keep for your records**) pg. 3
- Waiver of Liability for the Bodega Marine Reserve (**Required**) pg. 4
- Waiver of Liability for Diving & Boating (**Required ONLY if diving or boating**) pg. 5
- State Oath of Allegiance, Patent Policy and Patent Acknowledgment form (**Required**) pg. 6

PLEASE PRINT THE ABOVE DOCUMENTS AS SINGLE PAGES (NOT DOUBLE SIDED)

Note: Students ages 16-18 will need to attach a work permit to the volunteer documents listed above

Return all of the above documents completed and signed to jgarzacastro@ucdavis.edu or drop in mail slot labeled *J. CASTRO* (top section) by administration. These documents are kept in a central file

THIS PACKET ALSO INCLUDES THE FOLLOWING IMPORTANT DOCUMENTS TO BE KEPT BY THE VOLUNTEER. DO NOT RETURN THE FOLLOWING DOCUMENTS WITH YOUR COMPLETED DOCUMENTS LISTED ABOVE. THESE ARE FOR YOUR INFORMATION.

- Bodega Marine Reserve Rules and Regulations / 1 page
- Bodega Marine Reserve Hazards / 1 page
 - If you have questions about Bodega Marine Reserve, Please contact
 - Suzanne Olyarnik (707) 875-2020, svolyarnik@ucdavis.edu
 - Jackie Sones (707) 875-2021, jsones@ucdavis.edu
- Diving & Boating Information sheet (if diving or boating) 1 page
 - Please contact BML Diving & Safety program at boating@ucdavis.edu
- Animal Care Volunteer Position Description (For ARG Volunteers Only) / 1 page
 - Please contact Karl Menard (707) 875-2078, klmenard@ucdavis.edu with questions
- Facts about Workers Compensation / 5 pages
- Diversity Statement / 1 page
- UC Davis Principles of Community / 1 page
- UC Davis Code of Conduct / 2 pages

Total Package has 22 pages.

Please retain this form in your department files. Workers' Compensation will request a copy should an injury or illness be reported.

Optional Form

PREDESIGNATION OF PERSONAL PHYSICIAN

In the event you sustain an injury or illness related to your employment, you may be treated for such injury or illness by your personal medical doctor (M.D.), doctor of osteopathic medicine (D.O.) or medical group if:

- your employer offers group health coverage;
- the doctor is your regular physician, who shall be either a physician who has limited his or her practice of medicine to general practice or who is a board-certified or board-eligible internist, pediatrician, obstetrician-gynecologist, or family practitioner, and has previously directed your medical treatment, and retains your medical records;
- your "personal physician" may be a medical group if it is a single corporation or partnership composed of licensed doctors of medicine or osteopathy, which operates an integrated multispecialty medical group providing comprehensive medical services predominantly for nonoccupational illnesses and injuries;
- prior to the injury your doctor agrees to treat you for work injuries or illnesses;
- prior to the injury you provided your employer the following in writing: (1) notice that you want your personal doctor to treat you for a work-related injury or illness, and (2) your personal doctor's name and business address.

You may use this form to notify your employer if you wish to have your personal medical doctor or a doctor of osteopathic medicine treat you for a work-related injury or illness and the above requirements are met.

NOTICE OF PREDESIGNATION OF PERSONAL PHYSICIAN

Employee: Complete this section.

To: _____ (name of employer).

If I have a work-related injury or illness, I choose to be treated by:

(name of doctor) (M.D., D.O. or medical group)

(street address, city, state, ZIP)

(telephone number)

Employee Name (please print): _____

Employee's Address: _____

Employee's Signature: _____ Date: _____

Physician: I agree to this Predesignation:

Signature: _____ Date: _____

(Physician or Designated Employee of the Physician or Medical Group)

The physician is not required to sign this form, however, if the physician or designated employee of the physician does not sign, other documentation of the physician's agreement to be predesignated will be required pursuant to Title 8, California Code of Regulations, section 9780.1(a)(3).

Title 8, California Code of Regulations, section 9783.

DWC Form 9783 (March 1, 2007)

Note to Employee: Unless an employee agrees, neither the employer nor the claims administrator shall contact your personal physician to confirm a predesignation [CCR 9780.1(f)]. If your physician did not sign above, other documentation that they agreed to be predesignated prior to the injury will be required. If you agree that after receiving this form your employer or claims administrator may contact your physician to confirm the predesignation, sign below:

Employee Signature: _____ Employee I.D. # _____ Date: _____

Note to Physician: California workers' compensation medical services are subject to preauthorization of non-emergency services; utilization review; reporting requirements; and the California Official Medical Fee Schedule. UNIVERSITY OF CALIFORNIA, DAVIS
BODEGA MARINE RESERVE

Waiver of Liability, Assumption of Risk, and Indemnity Agreement

Waiver: In consideration of being permitted to visit or participate in any way in any activity, including transportation, at the above location, I, for myself, my heirs, personal representatives or assigns, **do hereby release, waive, discharge, and covenant not to sue** The Regents of the University of California, its officers, employees, and agents from liability **from any and all claims including the negligence of The Regents of the University of California, its officers, employees, and agents**, resulting in personal injury, accidents or illnesses (including death), and property loss arising from, but not limited to, visitation or participation in any way in any activity, including transportation, at the above location.

Signature of Minor's Parent/Guardian Date

Signature of Participant Date

Assumption of Risks: Visitation or participation carries with it certain inherent risks that cannot be eliminated regardless of the care taken to avoid injuries. The specific risks vary from one activity to another, but the risks range from 1) minor injuries such as scratches, bruises, and sprains to 2) major injuries such as eye injury or loss of sight, joint or back injuries, heart attacks, and concussions to 3) catastrophic injuries including paralysis and death.

I have read the previous paragraphs and I know, understand, and appreciate these and other risks that are inherent in visitation or participation. I hereby **assert that my visitation or participation is voluntary and that I knowingly assume all such risks.**

Indemnification and Hold Harmless: I also agree to INDEMNIFY AND HOLD The Regents of the University of California HARMLESS from any and all claims, actions, suits, procedures, costs, expenses, damages and liabilities, including attorney's fees brought as a result of my involvement in visitation or participation and to reimburse them for any such expenses incurred.

Severability: The undersigned further expressly agrees that the foregoing waiver and assumption of risks agreement is intended to be as broad and inclusive as is permitted by the law of the State of California and that if any portion thereof is held invalid, it is agreed that the balance shall, notwithstanding, continue in full legal force and effect.

Acknowledgment of Understanding: I have read this waiver of liability, assumption of risk, and indemnity agreement, fully understand its terms, and **understand that I am giving up substantial rights, including my right to sue.** I acknowledge that I am signing the agreement freely and voluntarily, and **intend by my signature to be a complete and unconditional release of all liability** to the greatest extent allowed by law.

	UNIVERSITY OF CALIFORNIA STATE OATH OF ALLEGIANCE, PATENT POLICY, AND PATENT ACKNOWLEDGMENT	EMPLOYEE'S NAME (Last, First, Middle Initial)		DATE PREPARED Mo/Dy/Yr
	UPAY585 (R 11/2011) E0420 71443-180	EMPLOYEE ID	DEPARTMENT	EMPLOYMENT DATE Mo/Dy/Yr
STATE OATH OF ALLEGIANCE I do solemnly swear (or affirm) that I will support and defend the Constitution of the United States and the Constitution of the State of California against all enemies, foreign and domestic; that I will bear true faith and allegiance to the Constitution of the United States and the Constitution of the State of California; that I take this obligation freely, without any mental reservation or purpose of evasion; and that I will well and faithfully discharge the duties upon which I am about to enter.				
Taken and subscribed before me on: _____ Signature of Authorized Official: _____ Title: _____ County: _____ State: _____		Signature of Officer or Employee: _____ (Do not sign until in the presence of proper witness.) NOTE: No fee may be charged for administering this oath.		
The oath must be administered by either (1) a person having general authority by law to administer oaths—for example, Notaries Public, Civil Executive Officers (Gov. Code Sec. 1001), Judicial Officers, Justices of the Peace, and county officials named in Gov. Code Sections 24000, 24057, such as, district attorneys, sheriffs, county clerks, members of boards of supervisors, etc., or (2) by any University Officer or employee who has been authorized in writing by The Regents to administer such oaths.				
WHO MUST SIGN THE OATH: All persons (other than aliens) employed by the University, in common with all other California public employees, whether with or without compensation, must sign the oath. (Calif. Constitution, Article XX, Section 2, Calif. Gov. Code Sections 3100-3102.) All persons re-employed by the University after a termination of service must sign a new Oath if the date of re-employment is more than one year after the date on which the previous Oath was signed (Calif. Gov. Code Sec. 3102.) WHEN OATH MUST BE SIGNED: The Oath must be signed BEFORE the individual enters upon the duties of employment (Calif. Constitution, Article XX, Section 3: Calif. Gov. Code Sec. 3102.)				
WHERE OATHS ARE FILED: The Oaths of all employees of the University shall be filed with the Campus Accounting Office. FAILURE TO SIGN OATH: No compensation for service performed prior to his subscribing to the Oath or affirmation may be paid to a University employee. And no reimbursement for expenses incurred may be paid prior to his subscribing to the Oath or affirmation. (Calif. Gov. Code Sec. 3107.) PENALTIES: "Every person who, while taking and subscribing to the Oath or affirmation required by this chapter, states as true any material which he knows to be false, is guilty of perjury, and is punishable by imprisonment in the state prison not less than one or more than 14 years." (Calif. Gov. Code Sec. 3108.)				
PATENT ACKNOWLEDGMENT This acknowledgment is made by me to The Regents of the University of California, a corporation, hereinafter called "University," in part consideration of my employment, and of wages and/or salary to be paid to me during any period of my employment, by University, and/or my utilization of University research facilities and/or my receipt of gift, grant, or contract research funds through the University. By execution of this acknowledgment, I understand that I am not waiving any rights to a percentage of royalty payments received by University, as set forth in the University of California Patent Policy, hereinafter called "Policy." I also understand and acknowledge that the University has the right to change the Policy from time to time, including the percentage of net royalties paid to inventors, and that the policy in effect at the time an invention is disclosed shall govern the University's disposition of royalties, if any, from that invention. Further, I acknowledge that the percentage of net royalties paid to inventors is derived only from consideration in the form of money or equity received under: 1) a license or bailment agreement for licensed rights, or 2) an option or letter agreement leading to a license or bailment agreement. I also acknowledge that the percentage of net royalties paid to inventors is not derived from research funds or from any other consideration of any kind received by the University. The Policy on Accepting Equity When Licensing University Technology governs the treatment of equity received in consideration for a license. I acknowledge my obligation to assign, and do hereby assign, inventions and patents that I conceive or develop 1) within the course and scope of my University employment while employed by University, 2) during the course of my utilization of any University research facilities, or 3) through any connection with my use of gift, grant, or contract research funds received through the University. I further acknowledge my obligation to promptly report and fully disclose the conception and/or reduction to practice of potentially patentable inventions to the University authorized licensing office. Such inventions shall be examined by the University to determine rights and equities therein in accordance with the Policy. I shall promptly furnish University with complete information with respect to each. In the event any such invention shall be deemed by University to be patentable or protectable by an analogous property right, and University desires, pursuant to determination by University as to its rights and equities therein, to seek patent or analogous protection thereon, I shall execute any documents and do all things necessary, at University's expense, to assign to University all rights, title, and interest therein and to assist University in securing patent or analogous protection thereon. The scope of this provision is limited by Calif. Labor Code Sec. 2870, to which notice is given below. In the event I protest the University's determination regarding any rights or interest in an invention, I acknowledge my obligation: (a) to proceed with any University requested assignment or assistance; (b) to give University notice of that protest no later than the execution date of any of the above-described documents or assignment; and (c) to reimburse University for all expenses and costs it encounters in its patent application attempts, if any such protest is subsequently sustained or agreed to. I acknowledge that I am bound to do all things necessary to enable University to perform its obligations to grantors of funds for research or contracting agencies as said obligations have been undertaken by University. University may relinquish to me all or a part of its right to any such invention, if, in its judgment, the criteria set forth in the Policy have been met. I acknowledge that I am bound during any periods of employment by University or for any period during which I conceive or develop any invention during the course of my utilization of any University research facilities, or any gift, grant, or contract research funds received through the University. In signing this acknowledgment, I understand that the law, of which notification is given below, applies to me, and that I am still required to disclose all my inventions to the University.				
NOTICE: This acknowledgment does not apply to an invention which qualifies under the provision of Calif. Labor Code Sec.2870 which provides that (a) Any provision in an employment agreement which provides that an employee shall assign, or offer to assign, any of his or her rights in an invention to his or her employer shall not apply to an invention that the employee developed entirely on his or her own time without using the employer's equipment, supplies, facilities, or trade secret information except for those inventions that either: (1) Relate at the time of conception or reduction to practice of the invention to the employer's business, or actual or demonstrably anticipated research or development of the employer; or (2) Result from any work performed by the employee for the employer. (b) To the extent a provision in an employment agreement purports to require an employee to assign an invention otherwise excluded from being required to be assigned under subdivision (a), the provision is against the public policy of this state and is unenforceable. In any suit or action arising under this law, the burden of proof shall be on the individual claiming the benefits of its provisions.				
RETENTION: Accounting: 5 years after separation, except in cases of disability, retirement or disciplinary action, in which case retain until age 70. Other Copies: 0-5 years after separation		Employee/Guest Name (Please print): _____ Employee/Guest Signature: _____ Date: _____ Witness Signature & University Acceptance: _____ Date: _____		

PLEASE SIGN STATE OATH AND PATENT ACKNOWLEDGMENT

UNIVERSITY OF CALIFORNIA PATENT POLICY—October 1, 1997

I. PREAMBLE

It is the intent of the President of the University of California, in administering intellectual property rights for the public benefit, to encourage and assist members of the faculty, staff, and others associated with the University in the use of the patent system with respect to their discoveries and inventions in a manner that is equitable to all parties involved.

The University recognizes the need for and desirability of encouraging the broad utilization of the results of University research, not only by scholars but also in practical application for the general public benefit, and acknowledges the importance of the patent system in bringing innovative research findings to practical application.

Within the University, innovative research findings often give rise to patentable inventions as fortuitous by-products, even though the research was conducted for the primary purpose of gaining new knowledge. The following University of California Patent Policy is adopted to encourage the practical application of University research for the broad public benefit; to appraise and determine relative rights and equities of all parties concerned; to facilitate patent applications, licensing, and the equitable distribution of royalties, if any; to assist in obtaining funds for research; to provide for the use of invention-related income for the further support of research and education; and to provide a uniform procedure in patent matters when the University has a right or equity.

II. STATEMENT OF POLICY

A. An agreement to assign inventions and patents to the University, except those resulting from permissible consulting activities without use of University facilities, shall be mandatory for all employees, for persons not employed by the University but who use University research facilities, and for those who receive gift, grant, or contract funds through the University. Such an agreement may be in the form of an acknowledgment of obligation to assign. Exemptions from such agreements to assign may be authorized in those circumstances when the mission of the University is better served by such action, provided that overriding obligations to other parties are met and such exemptions are not inconsistent with other University policies.

B. Those individuals who have so agreed to assign inventions and patents shall promptly report and fully disclose the conception and/or reduction to practice of potentially patentable inventions to the Office of Technology Transfer or authorized licensing office. They shall execute such declarations, assignments, or other documents as may be necessary in the course of invention evaluation, patent prosecution, or protection of patent or analogous property rights, to assure that title in such inventions shall be held by the University or by such other parties designated by the University as may be appropriate under the circumstances. Such circumstances would include, but not be limited to, those situations when there are overriding patent obligations of the University arising from gifts, grants, contracts, or other agreements with outside organizations.

In the absence of overriding obligations to outside sponsors of research, the University may release patent rights to the inventor in those circumstances when:

1. the University elects not to file a patent application and the inventor is prepared to do so, or
2. the equity of the situation clearly indicates such release should be given, provided in either case that no further research or development to develop that invention will be conducted involving University support or facilities, and provided further that a shop right is granted to the University.

C. Subject to restrictions arising from overriding obligations of the University pursuant to gifts, grants, contracts, or other agreements with outside organizations, the University agrees, following said assignment of inventions and patent rights, to pay annually to the named inventor(s), or to the inventor(s)' heirs, successors, or assigns, 35% of the net royalties and fees per invention received by the University. An additional 15% of net royalties and fees per invention shall be allocated for research-related purposes on the inventor's campus or Laboratory. Net royalties are defined as gross royalties and fees, less the costs of patenting, protecting, and preserving patent and related property rights, maintaining patents, the licensing of patent and related property rights, and such other costs, taxes, or reimbursements as may be necessary or required by law.

Inventor shares paid to University employees pursuant to this paragraph

represent an employee benefit. When there are two or more inventors, each inventor shall share equally in the inventor's share of royalties, unless all inventors previously have agreed in writing to a different distribution of such share.

Distribution of the inventor's share of royalties shall be made annually in November from the amount received during the previous fiscal year ending June 30th, except as provided for in Section II.D. below. In the event of any litigation, actual or imminent, or any other action to protect patent rights, the University may withhold distribution and impound royalties until resolution of the matter.

D. The DOE Laboratories may establish separate royalty distribution formulas, subject to approval by the President. Distribution of the inventor's share of DOE Laboratory royalties shall be made annually in February from the amount received during the previous fiscal year ending September 30th. All other elements of this policy shall continue to apply.

E. Equity received by the University in licensing transactions, whether in the form of stock or any other instrument conveying ownership interest in a corporation, shall be distributed in accordance with the Policy on Accepting Equity When Licensing University Technology.

F. In the disposition of any net income accruing to the University from patents, first consideration shall be given to the support of research.

III. PATENT RESPONSIBILITIES AND ADMINISTRATION

A. Pursuant to Regents' Standing Order 100.4(mm), the President has responsibility for all matters relating to patents in which the University of California is in any way concerned. This policy is an exercise of that responsibility, and the President may make changes to any part of this policy from time to time, including the percentage of net royalties paid to inventors.

B. The President is advised on such matters by the Technology Transfer Advisory Committee (TTAC), which is chaired by the Senior Vice President—Business and Finance. The membership of TTAC includes the Provost and Senior Vice President—Academic Affairs, the Director of the Office of Technology Transfer, and representatives from the campuses, DOE Laboratories, Academic Senate, the Division of Agriculture and Natural Resources and the Office of the General Counsel. TTAC is responsible for:

1. Reviewing and proposing University policy on intellectual property matters including patents, copyrights, trademarks, and tangible research products;
2. Reviewing the administration of intellectual property operations to ensure consistent application of policy and effective progress toward program objectives; and
3. Advising the President on related matters as requested.

C. The Senior Vice President—Business and Finance is responsible for implementation of this Policy, including the following:

1. Evaluating inventions and discoveries for patentability, as well as scientific merit and practical application, and requesting the filing and prosecution of patent applications.
2. Evaluating the patent or analogous property rights or equities held by the University in an invention, and negotiating agreements with cooperating organizations, if any, with respect to such rights or equities.
3. Negotiating licenses and license option agreements with other parties concerning patent and or analogous property rights held by the University.
4. Directing and arranging for the collection and appropriate distribution of royalties and fees.
5. Assisting University officers in negotiating agreements with cooperating organizations concerning prospective rights to patentable inventions or discoveries made as a result of research carried out under gifts, grants, contracts, or other agreements to be funded in whole or in part by such cooperating organizations, and negotiating with Federal agencies regarding the disposition of patent rights.
6. Approving exceptions from the agreement to assign inventions and patents to the University as required by Section II.A. above.
7. Approving exemptions to University policy on intellectual property matters including patents, copyrights, trademarks, and tangible research products.

Bodega Marine Reserve Rules and Regulations

Bodega Marine Reserve (BMR) lands and waters surrounding the Bodega Marine Laboratory (BML) are some of the most active research sites in the world. To protect on-going research and education, researchers, students, staff and visitors are required to abide by the following rules:

1. **Access** – Obtain permission to access the Reserve from the Reserve Director. This process is initiated by submitting an on-line application: <http://bml.ucdavis.edu/facilities/reservations-and-applications/> BMR staff will contact you after receiving an application or inquiry. The lab entrance gate is locked on weekdays from 5:30 p.m.–7:30 a.m. and at all times on weekends and holidays. The new housing entrance gate is locked 24 hours/day. Let us know if you need gate access.
2. **Waivers** – Return a signed waiver to BMR staff before accessing the Reserve. All minors (under 18) must have a parental/guardian signature. Waivers may be found at <http://www.bml.ucdavis.edu/bmr/waivers.html>. Note for long-term users, waivers need to be renewed every 5 years.
3. **General use** –
 - Drive only on established roads and obey speed laws as posted (25 mph or less).
 - When walking on the Reserve, stay on designated trails and walk in single file. Permission from the Reserve Director is required to walk off-trail, including beaches, dunes, and the rocky intertidal zone.
 - Recreation is not allowed on the Reserve; this includes picnicking, jogging, surfing, and camping. Please use nearby state and county parks for these activities. Note that recreation rules are relaxed within the laboratory enclaves — e.g., volleyball near the South Lounge and basketball near the housing facilities.
 - Pets are not allowed on the Reserve.
 - Avoid research sites, markers, wires, and other equipment.
 - Collecting is prohibited unless authorized by the Reserve Director.
4. **Research and class use** –
 - Please review our Additional Guidelines for Researchers.
 - **Before** engaging in research, obtain approval from Reserve staff for collecting and study site locations.
 - Mark plots and other equipment with name and date.
 - Moving plants, animals or soil within the Reserve or into the Reserve is not allowed without prior authorization. [More information on non-native genotypes concerns.](#)
 - Using chemicals and hazardous materials is not allowed without prior authorization. If approval is granted, substances must be maintained and disposed of according to approved UC and BML procedures.
 - At the end of your study, remove all equipment, including flags, stakes, bolts, etc.
5. **Permits** – Acquire necessary permits, certifications, and licenses to conduct your proposed activities. Reserve staff can help you identify necessary permits, but you are responsible for obtaining them. Required permits are dependent on your proposed activities and may include:
 - State and federal scientific collecting permits and Memoranda of Understanding
 - UCD Animal Care and Use protocols <http://safetyservices.ucdavis.edu/ps/a/IACUC>
 - Land owner permission
 - Work with non-native species must be approved by BML's Nonindigenous Species Group.
 - UC research diving certification. Researchers wanting to dive within the Reserve must meet with the BML/UCD Diving Safety Officer to review potential diving safety hazards and obtain approval to dive.
6. **Publications** – Provide two copies (paper or pdf) of any publication or report (only one bound copy of a thesis or dissertation is required) within six months of publication. For each publication:
 - Include “Bodega Marine Reserve” as a keyword.
 - Acknowledge Bodega Marine Reserve, University of California Davis, and UC Natural Reserve System.
7. **Data registration** – Register long-term datasets developed during your work at the Reserve in our nationally-linked registry (<http://www.ucnrs.org/metadata.lasso>). Please note that registration in this registry fulfills data registry requirements for NSF and the Ecological Society of America.
8. Please report any sightings of uncommon plants and animals on or near the Reserve.
9. Notify Reserve staff of safety hazards or rule violations (trespassing, poaching, etc.).

Bodega Marine Reserve Hazards

The California coast is a beautiful but rugged place. We remind those working in the field of the following potential hazards in the region around the Reserve:

SLEEPER WAVES: The Sonoma coastline is notorious for its "sleeper waves" — large waves that appear unpredictably and break further up shore than the preceding series of waves. Sleeper waves sweep people off rocks and beaches. Because the ocean water is extremely cold (usually 10–15° C), those washed into the sea have little chance of survival if not rescued immediately. When working near waves, don't turn your back to the ocean, work with a buddy, and do not wear chest waders since they can fill with water and be difficult to take off if you are swept into the ocean.

POISON OAK: This shrub is widespread in grassland and dunes, often in a very low form unlike inland plants which are taller. Oils from all parts of the plant can create a painful rash. If you have been exposed to poison oak, wash with soap and water within 10–15 minutes of exposure. If this is not possible, wash with Tecnu (a poison oak prevention product) as soon as possible to remove oils from your skin.

STEEP CLIFFS: Ocean cliffs are steep, and, because they are often composed of crumbling weathered rock, unstable. Do not walk close to the cliff edge or climb on the cliffs.

LYME DISEASE: The western black-legged tick (*Ixodes pacifica*), can be infected with the spirochete that causes Lyme disease in humans. Best estimates indicate that less than 10% of western black-legged ticks in western Sonoma County carry the spirochete. Lyme disease symptoms can take 3–30 days to appear and include a bulls-eye rash 5–6 inches in diameter (30–60% of the cases), joint pain, chills, fever, and fatigue. If not treated, the disease can develop into long-term severe fatigue, a stiff, aching neck, tingling or numbness in the extremities, facial palsy, severe headaches, painful arthritis and swelling of joints, cardiac abnormalities, and cognitive disorders. To reduce your chances of contracting Lyme disease: (1) avoid tick habitat (dunes, grassland) especially during spring and summer when nymphs feed; (2) remove tick within 24 hours after it embeds; and (3) dress appropriately by wearing light-colored clothing and long-sleeved shirts; tucking pants into socks or boot tops; wearing high rubber boots (since ticks are usually close to the ground); and applying insect repellents (DEET and permethrin). If you get a tick bite, and think you are developing symptoms of Lyme disease, see a doctor immediately.

HANTAVIRUS: This potentially lethal virus has been associated with rodents and rodent droppings in many counties in California. Symptoms can take 2 weeks to appear and include fatigue, fever (101–104° F), muscle aches, plus headaches, dizziness, chills, nausea, vomiting, diarrhea, and abdominal pain. These symptoms can develop into coughing, shortness of breath, and severe respiratory distress. To avoid hantavirus, stay away from areas infested with rodent droppings, especially in closed areas. If you need to enter a building that has been closed for any length of time, air out the structure, wear gloves, and wet mop with a bleach solution. Report any rodent activity at the Laboratory to BML staff.

SHARKS: White sharks are common on the Sonoma Coast and have attacked divers, kayakers, surfers and swimmers. To reduce your chances of shark attack, avoid areas known for white sharks (e.g., Farallon Islands, Año Nuevo, Bird Rock at Point Reyes), avoid areas where marine mammals congregate (sea lion and harbor seal rookeries and river mouths), avoid times of reduced sunlight (fog and dusk) and minimize your time at the surface of the ocean.

MOUNTAIN LION: There have been several sightings of mountain lions on Bodega Head in recent years. To reduce your chances of being attacked, do not approach or run from a mountain lion and do not crouch down or bend over. Do all you can to appear larger (raise your arms, open your jacket) and speak slowly, loudly, and firmly. If you are attacked, fight back.

Scientific Diving and Boating- Requires clearance from the UCD Boating and Diving Safety Officers. Boating activities at BML-BMR must include pre-approval from the BML Marine Operations Manager and from the Reserve Manager for any diving and/or boating inside the marine reserve.

Diving: Requires American Academy of Underwater Sciences, (AAUS) Check-out Evaluation Dive, Verification of Training letter and/or AAUS Letter of Reciprocity, with approval and endorsement from the UCD-DSO. Volunteer SCUBA divers may be eligible to participate in the UCD Scientific Diving Course after fulfilling the pre-requisite standards for enrollment. All UCD divers must read and communicate understanding of the UCD Diving Safety Manual and Policy.

<https://marinescience.ucdavis.edu/bml/dive-program>

DSO: 707-875-2032 / diving@ucdavis.edu

Boating: Requires all operators at minimum possess the National Association of State Boating Law Administrator, California Boater Education Card, and may also require proof of completion for the Scientific Boating Safety Association's, Motorboat Operator Training Course. All volunteers must complete the UCD Boating Safety Waiver to serve as operator, crew or scientific party onboard UCD owned vessels. Submit the BML Boating Application and provide Verification of Training to the UCD Boating Safety Officer and BML Marine Operations Manager. Evaluation Check-rides are completed with the or BML Marine Operations Manager or UCD-BSO. All UCD boaters must read and communicate understanding of the UCD Boating Safety Policy, PPM 290-82.

<https://marinescience.ucdavis.edu/bml/boating-safety-program>

707-875-1933 / boating@ucdavis.edu

BML Float Plans and Dive Plans: Boating and Diving Float/Field plans must be filed with the BML front office Monday through Friday during business hours. All after hours float plans during weekends and holidays must have a reliable afterhours shore contact.

Emergencies- US Coast Guard Bodega Bay: (707) 875-3596 or VHF-FM Channel 16

Divers Alert Network: (919) 684-9111

Bodega Marine Laboratory
University of California, Davis
Volunteer Position Description
Student volunteers (16-18 years of age)

Supervisor: Karl Menard

Bodega Marine Lab is an Organized Research Unit (ORU) sponsoring both research and instruction in coastal, marine, and aquatic sciences. The Aquatic Resources Group (ARG) provides a wide range of services in support of research and public education. The group is responsible for providing animal husbandry services and advice to clients, assisting BML Physical Plant with seawater system maintenance and repair, scientific collections, specimen storage and shipping, maintenance of public display aquaria, marine operations including management and scheduling of BML's small boat fleet, and scuba diving in support of research.

ARG utilizes volunteers in various ways to achieve its stated responsibilities. Due to training requirements and legal issues, it is important to clearly define the role of Student Volunteers (**must be minimum age 16 years.**) Student volunteers will only be allowed to work in the defined manner described below. Student Volunteers will be supervised by a member of ARG. No Student Volunteers will be allowed to work or be present at BML if a supervising member of ARG is not present at BML that day. Student Volunteers will be expected to work a minimum of four hours per week and no more than 12 hours per week. During the summer break Student Volunteers can arrange to work as much as 20 hours per week if authorized by the ARG manager.

50% Time: Animal Care

Assist in the feeding, chopping, sorting, and cleaning of food materials for the organisms in ARG's care using standard kitchen knives or chef's knives. Provide assistance in the maintenance of live foods for weekend and holiday feedings. Clean aquariums and holding tanks using hand tools, scrubbers, scrapers, brushes, etc. Assist in the movement of organisms from one part of the lab to another. Assist in the collections of organisms to be used for research, public display, and foodstuff. This position does not include the use of power tools, scuba diving, boating, or the use of specialized equipment requiring formal training.

50% Time: Maintenance of ARG Spaces and Equipment

Assist in the cleaning and organization of ARG storage areas and feeding preparation areas. Clean and maintain nets, filters, coolers, collecting equipment, glassware, and other equipment. Provide maintenance of boots, waders, boating equipment, collecting equipment, and tanks by rinsing with fresh water or by other means. Neatly maintain ARG storage areas to facilitate the preservation and orderly storage of ARG equipment. This position does not include the use or disposal of hazardous chemicals.

Facts About Workers' Compensation

The Way It Was

In the early 20th century, a worker injured on the job had to sue his employer to recover medical expenses and lost wages.

Lawsuits took months and sometimes years. Juries had to decide who was at fault and how much, if anything, would be paid. In most instances, the worker got nothing. It was costly, time consuming, and often unfair.

The Way It Is

Today, the California workers' compensation law provides a faster, fairer way to take care of injured workers... where fault doesn't have to be proved to recover medical expenses and lost wages.

This job-injury insurance is paid for by your employer and supervised by the state. It pays your medical bills and if you can't work due to a job-related injury or illness, provides money to help replace lost wages until you can return to work.

Who's Covered?

Almost every employee in California is protected by workers' compensation, but there are a few exceptions. People in business for themselves and unpaid volunteers may not be covered. Maritime workers and federal employees are covered by similar laws. If you have a question about coverage, ask your employer.

What's Covered?

Any injury or illness is covered if it's due to your job. It can be caused by one event like a fall, or repeated exposures, such as repetitive motion over time. Everything from first-aid type injuries to serious accidents is covered. Workers' compensation even covers injuries - including physical or psychiatric injuries - resulting from a workplace crime. (Some injuries from voluntary, off-duty recreational, social or athletic activity - for example, the company bowling team - may not be covered. Check with your supervisor or the claim administrator listed at the end of this document if you have questions.)

Coverage is automatic and immediate. There is no qualifying period, no need to earn a certain amount in wages before you're covered... protection begins the first minute you're on the job.

What You Have To Do

If you have a work injury or illness, immediately notify your supervisor or the employer representative listed on the back of this pamphlet so you can get medical help right away. If it's more than a simple first-aid injury, your employer will give you a claim form so you can describe the injury and how, when and where it happened. To file a claim, complete the "Employee" section of the claim form, keep one copy and return the rest to your employer. Your employer will then complete the "Employer" section, give you a signed and dated copy of the form, keep one copy and send one to the claims administrator, the company that is responsible for handling your claim and notifying you about your eligibility for benefits.

Benefits can't start until the claims administrator knows of the injury, so report the injury and file the claim form with your employer as soon as possible. State law requires employers to authorize medical care within one working day of receiving a claim form, and employers may be liable for as much as \$10,000 in treatment until a claim is accepted or rejected. Delays in reporting may delay workers' compensation benefits, and you may not be able to get benefits if you don't file a claim within one year of the date of injury, the date you knew the injury was work related, or the date benefits were last provided. To ensure your right to benefits, report every injury, no matter how slight, and request a claim form if it's more than a minor injury requiring only first aid.

Benefits

The California workers' compensation law guarantees you three kinds of benefits:

- All reasonable and necessary medical care for your injury or illness... with no deductibles. Medical benefits may include treatment by a doctor, hospital services, lab tests, x-rays, physical therapy and medicines. State law makes non-emergency medical services subject to preauthorization and limits some medical services.
- Tax-free payments to help replace lost wages while you are temporarily disabled. Additional payments are made if the injury causes a permanent disability or death.
- If your injury or illness causes permanent disability that prevents you from returning to work within 60 days after your temporary disability ends and your employer doesn't offer appropriate modified or alternative work, you may be eligible for a supplemental job displacement benefit. This is a nontransferable voucher for education-related retraining and/or skill enhancement at state-approved schools. Voucher amounts range from \$4,000 to \$10,000, depending on the level of permanent disability.

Benefit Payments

- **Medical Care:** All medical expenses for reasonable and necessary treatment will be paid directly by the claims administrator, so you should never receive a bill. The name and address of the claims administrator are at the end of this document and are posted at your workplace.

- **Temporary Disability:** If you are unable to work for more than three days, including weekends, you are entitled to temporary disability (TD) payments to help replace your lost wages. About two weeks after reporting the injury, you'll get a check. You will continue to receive TD checks every two weeks after that until the doctor says you can return to work, or that your medical condition is "permanent and stationary." (Payments won't be made for the first three days, however, unless you're hospitalized as an inpatient or unable to work more than 14 days.) The amount of these checks will be two-thirds of your average wage, subject to minimums and maximums set by the state legislature. It probably won't be the full amount of your regular paycheck, but there are no deductions and the payments are tax free. Under state law, TD payments for a single injury may not extend for more than 104 compensable weeks within five years from the date of injury, or for more than 240 weeks within five years from the date of injury for a few long-term injuries such as severe burns or chronic lung disease. If you reach the maximum TD payment period before you can return to work or before your medical condition becomes permanent and stationary, you may be able to obtain State Disability benefits through the California Employment Development Department (EDD). You also may be able to get these benefits if your TD is delayed or denied. There are time restrictions, however, so contact EDD at 1-800-480-3287 or www.edd.ca.gov for information on when and how to apply.

- **Permanent Disability:** If your doctor says your injury or illness will always leave you somewhat limited in your ability to work, you may receive permanent disability payments. The amount depends on the doctor's report, how much of the permanent disability was directly caused by your work, and factors such as your age, occupation, type of injury, and date of injury. If your employer has 50 or more employees, your benefit payment also will be affected by whether or not your employer makes a suitable return-to-work offer. The minimum and maximum amounts are set by state law, and vary by injury date, but if you have a permanent disability, your claims administrator will send you a letter explaining how the benefit was calculated. In general, the total amount is set at a weekly rate spread over a fixed number of weeks. The first payment is due within 14 days after the final temporary disability payment, or if you were not receiving temporary disability, 14 days after your doctor says your condition is permanent and stationary. After that, the benefit will be paid every 14 days until you reach the maximum or until you settle your case and receive a lump sum.

- **Death Benefits:** If the injury or illness causes death, payments may be made to individuals who were financially dependent on you. These benefits are set by state law and the amount depends on the number of dependents and the date of injury. Generally, the payments are made at the same rate as temporary disability payments; however, no payments will be less than \$224 per week. Workers' compensation also provides a burial allowance.

- **Supplemental Job Displacement Benefit:** If you receive temporary disability payments, within 30 days after that benefit ends, your claims administrator will send a letter advising whether your employer has a modified job or alternative work available for you, and explaining your potential rights to a supplemental job displacement benefit. If your employer does not offer modified or alternative work, and it is determined that you have a permanent disability that prevents you from returning to work within 60 days after your temporary disability ends, you may qualify for a nontransferable voucher to use at a state accredited school for retraining or skill enhancement. If you qualify, your claims administrator will provide a voucher up to a maximum set by state law:

- A) Up to \$4,000 for permanent disability awards of more than 0 but less than 15%.
- B) Up to \$6,000 for permanent disability awards between 15% and 25%.
- C) Up to \$8,000 for permanent disability awards between 26% and 49%.
- D) Up to \$10,000 for permanent disability awards between 50% and 99%.

Other Benefits

Workers' compensation is sometimes confused with State Disability Insurance (SDI). They seem similar, but there are important differences. Workers' compensation insurance covers on-the-job injuries and illnesses and is paid for entirely by your employer. On the other hand, SDI covers off-the-job injuries or sickness, and is paid for by deductions from your paycheck. If you are not receiving workers' compensation benefits, you may be able to get State Disability benefits. For information, call the local office of the state Employment Development Department listed in the government pages of your phone book, or learn more at www.edd.ca.gov/disability/.

If You Have Questions

...ask your supervisor or employer representative. Or contact the workers' compensation claims administrator (the name, address and phone number are listed at the end of this document and are posted at your workplace).

You also can contact an information and assistance officer at the State Division of Workers' Compensation (DWC). Information and assistance officers are available at no charge to answer questions, review problems and provide additional written information about workers' compensation. The local office is listed at the end of this document and is posted at your workplace, or you can call 800-736-7401, check the local listing in the white pages of the phone book under State Government Offices/Industrial Relations/Workers' Compensation, or go to the DWC web site at www.dwc.ca.gov.

More About Medical Care

Good medical care is important - to you, your family and your employer. Quality medical treatment is the quickest way to recovery.

- If emergency medical care is needed, call 911 for immediate help and get the best treatment available until emergency personnel arrive.
- If first-aid is available at your workplace, seek immediate treatment. Report to your employer where, when and how the accident happened. If it's more than a simple first-aid injury, ask your employer for a claim form.
- To make sure your medical bills get paid and you get all of your benefits, complete the "Employee" section of the claim form and return it to your employer as soon as possible. Employers must notify the claims administrator and authorize medical care within one working day of receiving a claim form, so get a signed and dated copy back from your employer and keep it with the other paperwork related to your claim.
- Your claims administrator will arrange medical care that meets the treatment guidelines for the injury. The doctor, who may be a specialist for your type of injury, will be familiar with workers' compensation requirements and will report promptly so your benefits can be paid.
- Your employer may have a Medical Provider Network (MPN), which is a network of health care providers who treat workers injured on the job. If so, a notice should be posted at your worksite to explain how to use the network. You also can request information on how to use the MPN by asking your employer or by calling the MPN number on the poster.
- The doctor with overall responsibility for your treatment is the "primary treating physician" (PTP). The PTP decides what kind of medical care you need and when you can return to work. If necessary, the PTP will review your job description with you and your employer to define any limitations or restrictions that you may have when you go back to work. The PTP also will coordinate any care you receive from other medical providers, and for a serious injury, will write reports about any permanent disability or need for future medical care.
- You can be treated by your personal doctor immediately if your employer offers group health coverage; the doctor has treated you before, has your medical records, and has agreed in advance to treat you for work injuries or illnesses; and you gave your employer the doctor's name and address in writing before the injury. This is called "predesignating a personal physician." If you decide to predesignate, the doctor must be someone who has limited his or her practice of medicine to general practice or be a board-certified or board-eligible internist, pediatrician, obstetrician-gynecologist, or family practitioner; or you can predesignate a multispecialty group of licensed doctors of medicine or osteopathy (M.D.s or D.O.s) that provides comprehensive medical services primarily for nonoccupational injuries and illnesses. You can use the optional predesignation form (DWC Form 9783) to give your employer the necessary information. You can use optional DWC Form 9783.1 to name a personal chiropractor or acupuncturist, but different rules apply, and you may need to see an employer-selected doctor first.
- If your employer has an MPN, but you have a predesignated personal physician, you may receive treatment immediately from that doctor. If your employer has an MPN and you do not predesignate a personal physician prior to injury, a network doctor will generally be your PTP for the duration of treatment. For treatment other than emergency care, your claims administrator should direct you to an MPN doctor for your first medical visit, though you may switch to another doctor in the network anytime after your first visit. If you want to switch to a chiropractor or acupuncturist, including a personal chiropractor or personal acupuncturist named prior to the injury, he or she must be in the network. Different rules apply if you are in a workers' compensation Health Care Organization (HCO). If your employer offers an MPN or if you are in an HCO, your employer will provide additional information about the network and your rights under your plan.
- Generally, if you don't predesignate a personal physician prior to the injury, and are not covered by an MPN, you can switch to your own doctor 30 days after the injury is reported. If you want to switch doctors before that, your claims administrator will give you a list of doctors to choose from. (Different rules apply if you are in an HCO, so check with your claims administrator if that's the case.) If you want to change doctors for any reason, choose carefully - most people don't have a family surgeon, for example. If you want advice on specialists, talk to the claims adjuster who works for your claims administrator. They're as interested as you are in your prompt recovery and return to work and will help you get a different doctor.
- In any event, report your choice to the claims adjuster as soon as you make it so the bills will be paid for you. Even minor injuries may need expert care. Prompt, quality medical care is the best investment you and your employer can make.

When a work injury or illness occurs...

1. If emergency medical care is needed, call 911 or go to the nearest emergency room.
2. Report injuries immediately to your supervisor or employer representative at 877-682-7778 (telephone). Your employer may advise you on where to go for treatment. Your employer also is required to provide you with a claim form within one working day of learning of your injury, so ensure your rights to benefits by reporting every injury, no matter how slight, and request a claim form if it's more than a simple first-aid injury.

Your employer must notify the claims administrator and authorize medical treatment within one working day of receiving your claim form, and will direct you to a doctor, clinic, or hospital if necessary. Any delay in reporting an injury may delay workers' compensation benefits. If your claim or benefits are denied, you have a right to challenge the decision at the Workers' Compensation Appeals Board, but there are deadlines for filing the necessary papers, so don't delay.

3. Call your employer representative or claims administrator if you have questions or problems. It is illegal for an employer to fire or discriminate against you just because you file, intend to file, or settle a workers' compensation claim, or because you testify for a co-worker who was injured. If you prove this kind of discrimination, you will be entitled to job reinstatement, lost wages and increased benefits, plus costs and expenses up to a maximum set by the state legislature.

Emergency Telephone Number: Call 911 for an ambulance, the fire department, police, or for emergency medical care from a doctor or hospital. For nonemergency medical care, contact your employer, the workers' compensation

claims administrator listed below, or go to Occupational Health Services, 501 Oak Avenue, Davis, CA 530-757-3266

Claims Administrator:

Name: Sedgwick CMS ☒ Check if Company Is Self-Insured

UC DAVIS PRINCIPLES OF COMMUNITY

The University of California, Davis, is first and foremost an institution of learning, teaching, research and public service. UC Davis reflects and is committed to serving the needs of a global society comprising all people and a multiplicity of identities. The university expects that every member of our community acknowledge, value, and practice the following guiding principles.

We affirm the dignity inherent in all of us, and we strive to maintain a climate of equity and justice demonstrated by respect for one another. We acknowledge that our society carries within it historical and deep-rooted injustices and biases. Therefore, we endeavor to foster mutual understanding and respect among the many parts of our whole.

We affirm the right of freedom of expression within our community (<https://diversity.ucdavis.edu/affirm-right-freedom-expression/>). We affirm our commitment to non-violent exchange and the highest standards of conduct and decency toward all. Within this context we reject violence in all forms (<https://diversity.ucdavis.edu/we-reject-violence-all-forms/>). We promote open expression of our individuality and our diversity within the bounds of courtesy, sensitivity and respect. We further recognize the right of every individual to think, speak, express and debate any idea limited only by university regulations governing time, place and manner.

We confront and reject all manifestations of discrimination (<https://diversity.ucdavis.edu/confront-and-reject-all-manifestations-discrimination/>), including those based on race, ethnicity, gender and gender expression, age, visible and non-visible disability, nationality, sexual orientation, citizenship status, veteran status, religious/non-religious, spiritual, or political beliefs, socio-economic class, status within or outside the university, or any of the other differences among people which have been excuses for misunderstanding, dissension or hatred. We recognize and cherish the richness contributed to our lives by our diversity. We take pride in all our achievements, and we celebrate our differences.

We recognize that each of us has an obligation to the UC Davis community of which we have chosen to be a part. We will strive to build and maintain a culture and climate based on mutual respect and caring.

For more information, to learn more about the *Living the Principles of Community* e-learning course, and translations, see Diversity, Equity & Inclusion (<https://diversity.ucdavis.edu/>) & the Principles of Community (<https://diversity.ucdavis.edu/principles-community/>).

Diversity Statement

Bodega Marine Laboratory &
Bodega Marine Reserve

BODEGA MARINE RESERVE

Natural Reserve System

UNIVERSITY OF CALIFORNIA, DAVIS

The community comprised of University of California, Davis's Bodega Marine Laboratory (BML) and Bodega Marine Reserve (BMR) is committed to achieving and sustaining excellence through diversity, equity, and inclusion. The essential importance of diversity, equity, and inclusion requires that we recognize and strive to rectify the exclusion of historically underrepresented groups in coastal and marine sciences and in our broader community. Deeply entrenched structural, cultural, and institutional systems have given advantages to some members of our community at the expense of others, based on features of their identity. This historical legacy of exclusion and disenfranchisement stands in opposition to our commitment to diversity and inclusion. We therefore seek to collectively identify and redress such institutional and interpersonal barriers within our community on an ongoing basis.

As stated in UC Davis's Principles of Community, the university, "is first and foremost an institution of learning, teaching, research, and public service. UC Davis reflects and is committed to serving the needs of a global society comprising all people and a multiplicity of identities."¹ BML and BMR's core missions include developing innovative research, teaching, and public service programs to (a) advance a multi-disciplinary understanding of natural systems, (b) solve complex environmental problems, (c) improve the sustainability of coastal ocean ecosystems and the communities that rely on them, and (d) cultivate diverse leaders.^{2,3,4} These objectives cannot be met without a strong institutional commitment to diversity, equity, and inclusion. The community comprised of BML and BMR is geographically isolated, has a core group of year-round residents with many occasional and seasonal members, and has a mix of individuals across institutional, educational, and cultural backgrounds. Given these attributes, we believe it is of the utmost importance to foster and celebrate diversity in our community to prevent insularity and to maximize inclusion.

We affirm that the best learning, teaching, research, and public service occur in a community that represents and celebrates individuals who identify across multiple axes of diversity and are drawn from diverse and intersecting social identities, such as race, ethnicity, nationality, geographic origin, citizenship, socioeconomic status, political beliefs, religion, gender, sexuality, body size and ability, appearance, family size, age, educational status, and experience. This list is not intended to be exhaustive, and the meanings and significance of these and other identities intersect and change contextually and over time. We celebrate and promote these social differences and the expression of identity they convey, as they enrich our community and our work. We are committed to fostering an inclusive culture in which everyone, regardless of background and identity, is and feels appreciated and experiences a deep sense of social and professional belonging. We aim to foster a culture where diverse perspectives are regularly elicited and valued, and where new ideas are encouraged and respectfully discussed. We therefore establish that we will collectively take responsibility for and participate in supporting diversity, equity, and inclusion in our community.

We welcome, celebrate, and amplify all identities at BML and BMR.

The Bodega Diversity Committee created this statement with input from the broader BML/BMR community. It will be updated annually each spring with community input. This version was updated on 18 June 2019.

CODE OF ACADEMIC CONDUCT

Honesty, Fairness, Integrity

This Code of Academic Conduct exists to support high standards of behavior and to ensure fair evaluation of student learning. Students who violate the Code of Academic Conduct are subject to disciplinary sanctions that include censure, probation, deferred separation, suspension, or dismissal from the University of California. Unless specifically authorized by the instructor in writing, misconduct includes, but is not limited to the following:

➤ **Academic misconduct on exams or other coursework**

- Copying or attempting to copy from another student, allowing another student to copy, or collaborating with another student on an exam
- Displaying or using any unauthorized material such as notes, cheat-sheets, or electronic devices, or content generated by artificial intelligence
- Looking at another student's exam
- Not following an instructor's directions
- Talking, texting or communicating during an exam
- Altering assignments or exams for re-grading purposes
- Bringing pre-written answers to an exam
- Having another person take an exam for the student, or taking an exam for another student
- Theft of academic work
- Unexcused exit and re-entry during an exam period

➤ **Plagiarism**

- Taking credit for any work not created by the student; work includes, but is not limited to, books, articles, experimental methodology or results, compositions, images, lectures, computer programs, internet postings, and content generated by software or artificial intelligence
- Copying any work not created by the student without indicating that it is copied and properly citing the source of the work
- Using ideas that are not the student's without putting such work in their own words or form and/or failing to provide proper citation
- Using false citations that do not correspond to the submitted work
- Representing previous work as if it is original or new work
- Submitting the same or similar work in more than one course without prior permission of the instructor

➤ **Unauthorized collaboration**

- Working together on graded coursework without permission of the instructor
- Working with another student beyond the limits set by the instructor
- Providing or obtaining unauthorized assistance on graded coursework

➤ **Misuse of an instructor's course materials or the materials of others**

- Posting, purchasing, obtaining, sharing, or copying any course materials of an instructor without the explicit written permission of that instructor
- Unauthorized use of another student's work

➤ **Lying or fraud**

- Giving false excuses to obtain exceptions for deadlines, to postpone an exam, or for other reasons
- Forging signatures or submitting documents containing false information
- Making false statements regarding attendance at class sessions, requests for late drops, incomplete grades, or other reasons

➤ **Misuse of university properties or resources**

- Purchasing or selling (or attempting to) one's registration in a class

➤ **Intimidation or disruption**

- Interfering with the orderly operation of the campus involving teaching, research, administration, disciplinary procedures or other university activities
- Pressuring an instructor or teaching assistant to regrade work, change a final grade, or obtain an exception such as changing the date of an exam, extending a deadline, or granting an incomplete grade
- Refusing to leave an office when directed to do so
- Physically or verbally intimidating or threatening an instructor, teaching assistant or staff person, including, but not limited to, invading personal space or engaging in any form of harassment
- Repeatedly contacting or following an instructor, teaching assistant, or staff person when directed not to do so
- Misusing a classroom electronic forum by posting material unrelated to the course
- Interfering with an instructor's or teaching assistant's ability to teach a class, or interfering with other students' participation in a class

Upholding the UC Davis Code of Academic Conduct

Students, faculty, and university administration all have a role in maintaining an honest and secure learning environment at UC Davis.

➤ **Students**

The success of our Code of Academic Conduct depends largely on the degree that it is willingly supported by students. Students:

- Are responsible to know what constitutes cheating. Ignorance is not an excuse.
- Are required to do their own work unless otherwise allowed by the instructor.
- Are encouraged to help prevent cheating by reminding others about this Code and hold each other accountable by reporting any form of suspected cheating to the university.
- Shall respect the copyright privileges of works produced by faculty, the university, and other copyright holders.
- Shall not threaten, intimidate or pressure instructors or teaching assistants, or interfere with grading any coursework.
- Shall not disrupt classes or interfere with the teaching or learning environment.

➤ **Faculty**

Faculty members and instructors are responsible for teaching courses and evaluating student work, and are governed by University of California and UC Davis policies and regulations. Regulation 550 of the Davis Division of the Academic Senate addresses academic misconduct. Faculty and instructors:

- Will provide students with a course outline containing information about the content of the course, amount and kind of work expected, examination and grading procedures, and notice of the Code of Academic Conduct.
- Should monitor examinations to help prevent academic misconduct.
- Shall report all suspected cases of cheating and other misconduct to the [Office of Student Support and Judicial Affairs](#).

➤ **University Administration**

The university has delegated authority and responsibility to the Office of Student Support and Judicial Affairs (OSSJA) for the adjudication and resolution of academic misconduct cases. OSSJA maintains records of academic misconduct.

The university:

- Shall educate faculty and students about the Code of Academic Conduct.
- Shall provide physical settings such as classrooms and labs for examinations that minimize opportunities for academic misconduct.
- Shall assist and train faculty and teaching assistants about how to prevent and address academic misconduct.

➤ **Submitting Reports and Judicial Procedures**

- The Code of Academic Conduct governs academic conduct at UC Davis.
- Faculty have sole authority, as granted by the Academic Senate, to evaluate a student's academic performance and assign grades. If academic misconduct is admitted or is determined by adjudication to have occurred, instructors may assign a grade penalty no greater than "F" for the course in question. If a report is pending at the end of an academic term, instructors should assign a temporary grade of "Y" for the course until the report is resolved.
- A faculty/student panel, convened by OSSJA, shall conduct formal hearings to adjudicate contested cases of academic misconduct, unless the right to a formal hearing has been withdrawn. The right to a formal hearing may be withdrawn because of a prior finding of misconduct.
- Instructors and teaching assistants may direct a student to leave a class immediately if the student's behavior is disruptive.
- Instructors, teaching assistants and staff persons should contact police (530-752-1230 or 911) if they feel physically threatened.
