Announcements

In honor of Dr. Susan Williams, a memorial fund has been established. Find out more [here](#).

Last summer, BML undergraduates Seth Strumwasser and Hao Hao Pontius created a video for their Coastal Marine Research class. This year, it's 1st place in the [UC Davis Research Rockstars Undergrad Slam](#) for outstanding scientific communication!

Are you an

News

Clark Anderson/Aquaimages

The Longnose Butterflyfish hunts for prey on the sea floor. Butterflyfish with this feeding habit rely more on physical defense against predators and less on hiding among coral, UC Davis research has found. [Read the story here.](#)

undergraduate interested in joining the CMSI team? As a CMSI intern, you will gain experience in science communication, managing social media accounts, and much more! If this is something of interest to you, [email us](#) with a resume and cover letter by September 21st.

Fellowships

The 2019 California Sea Grant State Fellowship Program is now accepting applications for 25, 12-month paid fellowships. [Apply](#) before August 31st.

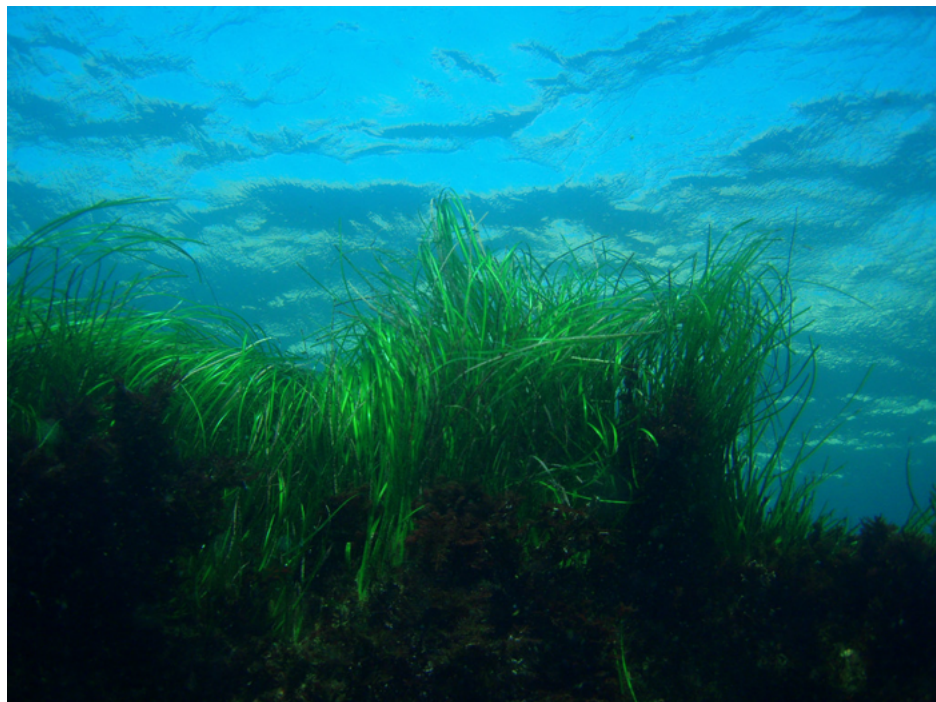

Events

[Register](#) to participate in the day-long symposium presented by UC Davis and California Department of Conservation, "Managing Lands in a Changing Climate" to be held at the Mondavi Center on the UC Davis campus on September 10, 2018."

CMSI and the Delta Science Program are teaming up again for a symposium on the Ecological and Physiological Impacts of Salinization of Aquatic Systems at the UC Davis

Flickr

Seagrass meadows could play a limited, localized role in alleviating ocean acidification in coastal ecosystems, according to new work led by Carnegie's David Kowek and UC Davis researchers Kate Hewett, Brian Gaylord, and John. J. Stachowicz. [Find out more.](#)

Kate Hewett & Carina Fish/UC Davis

[Congratulations](#) to UC Davis graduate students, Carina Fish and Kate Hewett, working out of the Bodega Marine Laboratory, recipients of the National Oceanic and Atmospheric Administration's Dr. Nancy Foster Scholarship!

campus on September 26th! [Find out more.](#)

Susan Williams
Celebration of Science, Life & Impact
October 25-27, 2018

Please join us to celebrate the life of Susan Williams, Distinguished Professor, and faculty member of the Department of Evolution and Ecology and the UC Davis BML on October 25th–27th. [Event details here.](#)

Spotlight

[Meet](#) Aaron Ninokawa, a graduate student at the Bodega Marine Laboratory.

Karin Higgins/UC Davis

Learn how Tsar Nicoulai, a caviar farm, is working with UC Davis aquaculture specialist Jackson Gross to recycle nearly 80% of all the water they use. [Learn more here.](#)

Rebecca Fanning/MEDILL

Rebecca Fanning of Northwestern University, Medill News Reports shared her experience at the Bodega Marine Laboratory in a series of beautifully written blog posts. [Check it out!](#)

Tideline Updates

Do you have any news, events, announcements and/or opportunities you want us to feature on the CMSI or BML websites or in the next issue of Tideline? Email us at cmsinews@ucdavis.edu.

Annie Schmidt/UC Davis

UC Davis researchers tested how climate change affects the frequency of El Niño–Southern Oscillation (ENSO) and wildlife. Surprisingly, they found that climate change could be beneficial for species like the Brandts Cormorant. [More here.](#)
