RFA's

The Delta Science Fellows Program will support graduate students and postdoctoral researchers who will work on collaborative data analysis and research projects applicable to the California Bay-Delta system. Find out more [here](#). Attend optional webinar on October 8, 10-11am [here](#).

News

(Photo Credit Chelsea Rochman, UC Davis)

UC Davis and Hasanuddin University in Indonesia published a study that directly links plastic and manmade debris to fish on consumers' plates.

More Fellowships...

1. *The Arnold O. Beckman Postdoctoral Fellows Award supports postdoctoral scholars with academic careers in chemistry and the life sciences. More info [here](#).*

2. *The American Society for Microbiology (ASM) has launched a Science Teaching Fellowship Program for students and postdocs in microbiology-related fields. Find additional information [here](#).*

Announcements

The California Salmon and Climate Variability Symposium, convened by UC Davis' CMSI and the Delta Stewardship Council Delta Science Program, was a success!

View videos and presentations from the symposium [here](#).

(Photo by Kathleen Willett – North Bay Bohemian)

CMSI's Dr. John Largier at Bodega Marine Laboratory was quoted in an article that discusses the effects of warmer ocean temperatures on the presence of biotoxins in the coastal ocean environment. [Read here>>](#)

He was also recently quoted in an article by the Press Democrat about warm temperatures and the effect on salmon catch. [Read here>>](#)

Join us for our monthly coffee/tea hour for marine science and policy graduate students and postdocs. Connect with peers and share ideas over caffeinated drinks and sweets on **October 13, 2015** in **1347 Storer Hall** at **3pm**.

Follow us on [instagram](#) for photo updates. Tag us at [ucd_cmsi](#) for your photos to be featured on our account!

If you have any news we should know about, please email us at cmsinews@ucdavis.edu

Jobs

Kearn's & West's Sacramento/Davis office (located in Davis) is seeking an Associate for immediate hire. [Read more here>>](#)

Dr. Emily Rivest, a researcher at Bodega Marine Laboratory, was recently interviewed by KQED Newsroom as part of a panel to discuss ocean acidification, ocean health, and Monterey Bay!

[Watch the full interview here >>](#)

(Photo credit D.A. George et al.)

Dr. John Largier and Douglas George from Bodega Marine Laboratory and colleagues recently published a paper on California headlands and littoral cells.

2015-2016 CMSI
Internship positions for
undergraduates! Read
the position
descriptions [here](#).

The [96th Annual Western Society of Naturalists](#) will be held from November 5th-8th at the DoubleTree by Hilton hotel in Sacramento, CA. The focus of the meeting will be "Marine Science Informing Management". Please register [here](#).
Registration closes October 1st.

The banner features a collage of four images: a river flowing through a valley, a forested mountain, a desert landscape with a volcano, and a close-up of green leaves. The text "2015 Southwest Climate Summit" is centered in white. A yellow diagonal banner on the right says "Registration is NOW open!". Below the images, a blue box contains a bulleted list of topics and a call to action.

2015 Southwest Climate Summit

- Discover emerging climate science
- Explore adaptive management
- Share Climate-Smart Conservation results
- Discuss management & policy options

Join us for a the 2015 Climate Summit when we'll move Climate-Smart Conservation forward by bringing together managers and scientists from across the Southwest.

The [2015 Southwest Climate Summit](#) will be held from November 2-3, 2015 in Sacramento, California. The Summit will focus on science and natural resources management around the issue of changing climate. Register [here](#).

MARINE AND COASTAL SCIENCE

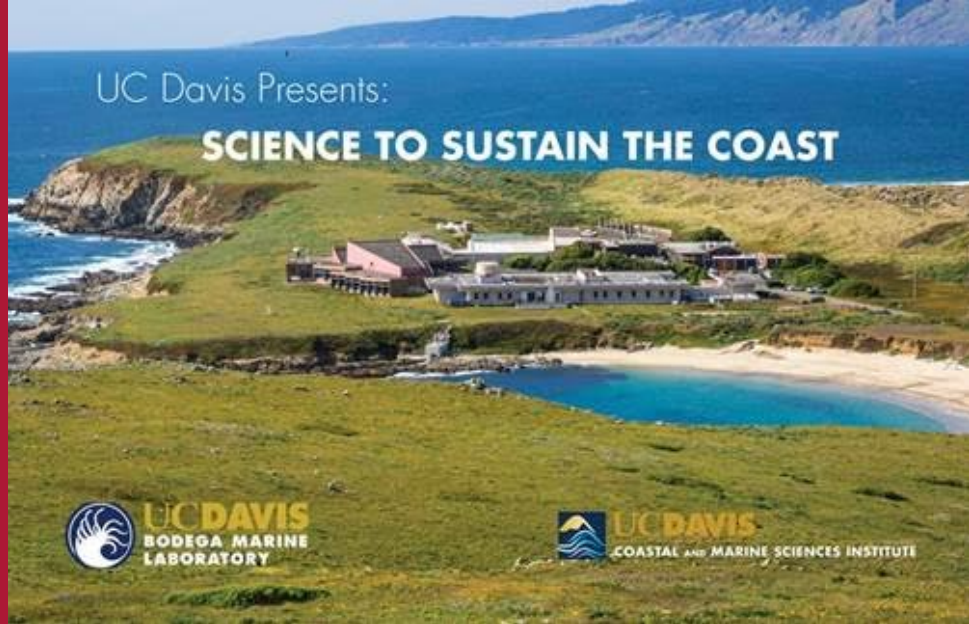

The poster features three vertical images of marine life: a sea anemone, a yellow and black striped nudibranch, and an orange tang fish. To the right of the images is a text box with the event title and details.

MEET & GREET & EAT

Celebrate the start of the new school year with friends and food! Meet faculty and new students as we welcome everyone back for another year. All students interested in the Marine and Coastal Science major are welcome. Free pizza will be provided.

THURSDAY, OCTOBER 1ST, 2015 | 3:00 - 5:00 PM | STORER 1347

Marine and Coastal Science Meet & Greet & Eat **Thursday, October 1st, 2015** in **Storer 1347** from 3-5 pm. All interested students are welcome!

Cal Aggie Alumni Association presents "Science to Sustain the Coast" on October 16, 2015 at Bodega Marine Laboratory. Please [RSVP](#) by Friday, October 9. Read more about the event [here](#)!

Spotlight

Our newest Spotlight is on graduate student **Brittany Jellison**! Jellison's research focuses on the effects of climate change on species interactions. Read more about Jellison's work [here](#)!
